MAP OF BUILDING AND GROUNDS

HEREFORE, when we build let us think that we build forever. Let it not be for present delight nor for present use alone. Let it be such work as our descendants will thank us for and let us think as we lay stone on stone that a time is to come when those stones will be sacred because our hands have touched them and that men will say as they look upon the labor and the wrought substance of them, "See! this our fathers did for us."—*John Ruskin.*

Problems?

**Our Ag Engineers really have 'em—
but it's your problems they're helping to solve!**

Our Ag Engineers go to great lengths to look for trouble; in fact, they invite trouble because nothing gives them greater pleasure than to have a farmer say: "I've got a little problem . . . I'm going to remodel my feed handling system and need some advice!" Or: "I'm planning to put in a crop drier and there's a few things about it that's got me stumped."

Helping farmers in this area is one job our Ag Engineers like to do and are

qualified for. Whatever your problem—be it barn ventilation, wiring, water systems, barn cleaners, or crop driers—you're welcome to the free advisory services of our Ag Engineers.

Where is your local Ag Engineer? At the other end of the telephone or on the receiving end of a penny postcard. Simply phone or write your local electric company's store or office. Can you think of an easier way to get the help you need?

TUESDAY, November 30:

Hereford.

A familiar sight on Chicago streets are the big, good-looking yellow trucks of Edward Hines Lumber Co. delivering lumber to the thousands of Hines customers in this great metropolitan area. Before a truck rolls out of one of Hines twenty-four yards, a lot of planning is required. Hines lumber experts have sat down with the customer and determined the best lumber for the job. And when all that's been done, the machinery of actual delivery starts to roll. But the planning, and all the work that's entailed to getting the lumber from the forest to the customers is the package Hines customers buy. It's Hines Service . . . performance that's been under development since 1892 . . . and we're still working hard to make it better!

GENERAL INFORMATION

Reception of Animals: The building will be in readiness for the reception of cattle, sheep and swine any time during the week preceding the Exposition; and barns for horses on and after Thursday preceding the Show.

Feeds and Forage: In order to conserve our exhibition space and to prevent congestion in the aisles, the following regulation will be strictly enforced:

Exhibitors will not be permitted to bring standard feeds to the Exposition, as they can secure these from the Superintendent of Forage at prevailing prices.

Should the exhibitor desire to bring in specially prepared feeds, they must be carefully bagged and labeled and turned over to the Superintendent of Forage for storage. He will deliver them to the exhibitor's location as required, for which a charge of \$1.00 per cwt. for storage and service will be made against the exhibitor.

Any standard feeds in excess of his "in transit" requirements which the exhibitor may have in his car must be labeled and turned over to the Superintendent of Forage. The exhibitor may then draw on this supply for his requirements. These feeds will be billed to him at the regular Exposition rates less their wholesale market price.

No allowance will be made to the exhibitor for any feed brought in by him in excess of his requirements.

Electric Cookers: In order to conserve space and prevent congestion, no electric feed cookers will be permitted in the Amphitheater.

Storing Articles: Storerooms will be provided in which all packing and shipping materials must be deposited.

Entry Fee: RULE 6. An entry fee of \$4 per head will be charged on cattle, \$7.50 on horses, and 75c per head on sheep and swine, which must accompany entries. This money will, however, be applied on stall rent or pen fees when exhibit is brought on, but retained if the exhibitor fails to bring his animals.

Ownership of Animals: RULE 7. To be eligible for competition, whether singly or in groups, animals must be the bona fide property of exhibitors, and all animals entered for competition, except where otherwise specified, must be owned by exhibitor at the time of making entry. Registry certificate of ownership or transfer must be produced, if required, showing the exhibitor to be the owner. Animals to compose a competitive group need not be named in application for entry, but must be selected by exhibitor.

Firms and Co-Partnerships: RULE 8. Firms and co-partnerships entering animals for competition must be in existence at the time of making entry, and in all cases must be bona fide, and affidavits of the age of firms may be required by the management.

Eligibility for Competition: RULE 9. An animal can compete in more than one class, and for any and every purse in sweepstakes groups or specials to which they are eligible under the classification. The rules are so arranged as to enable every exhibitor to easily determine in which classes his exhibits are eligible.

Catalog Numbers: RULE 10. All entries will be inserted in the annual catalog, and exhibitors on their arrival at the Exposition will receive, on application to their respective association secretaries, tags with duplicate numbers to correspond with the catalog number, which must be fastened in the most conspicuous part of the stalls, pens or place where exhibit is shown.

Sales: RULE 11. If it is desired, the exhibitor may state in the entry the price for which he will sell his animal. This price shall be inserted in the catalog, but all sales will be between the owner, or his representative, and the purchaser. The Exposition will not assume any responsibility.

Substitution: RULE 12. No person having entered anything for competition will be allowed to make substitution of animals or otherwise change the entry after ten days prior to the opening of the Exposition, except as noted in rule 13, nor may any one refuse any premiums awarded and the prize ribbons and commendation cards must be displayed during the Exposition.

Erroneous Entry: RULE 13. Exhibits that have been erroneously entered may, in the discretion of the Manager, be transferred to their proper classes previous to the judging. If such classes have been judged they shall not be reopened.

EXHIBITORS

Arrival of Animals: RULE 14. All articles and animals for exhibition, except car lots of fat stock (see Special Rule), must be in their places, with all rubbish and waste cleared away at 9 a. m. of the opening day of the Exposition, and entered in the name of the real owner, to remain on the grounds to the close of the Exposition. Any violation of this rule will cause a forfeiture of all premiums earned by the exhibitors.

Release of Animals: RULE 15. All animals must remain on the grounds until the close of the Exposition at 10 p.m. the final Saturday and will only be otherwise excused on veterinary recommendation approved by the management. This regulation will apply to all livestock, including those sold through auctions in conjunction with the Exposition. Any violation of this rule will cause a forfeiture of all premiums earned by exhibitors.

Care of Animals: RULE 16. After having properly entered their animals, exhibitors must themselves see to their delivery to the Steward of the appropriate department, so that their exhibits may be in their places, properly ticketed and ready for competition, on the opening day of the Show before the work of judging begins. They are likewise required to attend to their articles or animals while on exhibition, and answer such questions as the judge may deem essential to a correct estimate of their relative value.

Use of Blankets: RULE 17. Exhibitors are prohibited from using blankets or covers on their stock between the hours of 7 a. m. and 11 p. m. each day of the Exposition, except in the carload lots, where the hours will be from 9 a. m. to 4 p. m.

Decorating Exhibits: RULE 18. Exhibitors of horses are requested to decorate their quarters as tastily as possible, and must keep that part of the building occupied by them neat and attractive in appearance. This will prove a strong factor in impressing each individual exhibit upon the minds of the visitors and buyers.

Uniforms: RULE 19. Exhibitors are requested, in their own interests and for the best appearance of the Show, to see that their attendants are neatly and appropriately dressed when they lead their animals into the ring.

Evening Shows: RULE 20. A great educational feature of this Exposition is its evening shows and parades of approved live stock by breeds and ages. Notice of time and places of parades will be announced by bulletins and stewards.

Refusal to Parade: EXHIBITORS REFUSING FOR ANY CAUSE NOT MEETING WITH THE APPROVAL OF THE MANAGEMENT TO LEAD OUT THEIR ANIMALS FOR PARADE OR FOR COMPETITION IN THE SHOW RING WHEN CALLED BY THE STEWARDS IN CHARGE WILL NOT ONLY FORFEIT ALL PRIZES PREVIOUSLY WON, BUT BE DEBARRED FROM FURTHER PARTICIPATION IN THE SHOW AND REQUIRED TO REMOVE THEIR STOCK FROM THE SHOW GROUNDS WITHIN SIX HOURS AFTER SUCH REFUSAL. The Executive Committee may further impose such additional penalty as in its judgment the case deserves.

Arena Privileges: RULE 21. No person other than those holding animals being exhibited will be allowed in the show ring during the time of judging, except the Judges and officially accredited ring stewards. This rule will be rigidly enforced.

Catalog of Exhibit: RULE 22. No animal shall be considered by Awarding Committee whose attendant is not wearing tag during competition. This tag will show the number, age and official weight of competing animal.

Removal of Exhibit: RULE 23. An exhibitor wishing to remove an exhibit for the night must apply to the Manager; and, if there appears to be good reason for the removal, it may be effected by leaving a suitable deposit and receiving an official pass, the time of leaving and that of returning to be inserted thereon; and, if the exhibit be not duly returned, the deposit will be forfeited to the Exposition.

Delivery of Animals, Placards: RULE 24. Exhibitors will not be allowed to deliver animals or articles during the Exposition without special permission (though they may receive and book orders), nor will they be permitted to call attention to their wares in any noisy manner, and only such signs and placards may be used as the Manager shall approve and allow.

Conduct: RULE 25. Any false representation, interference or ungentlemanly conduct on the part of an exhibitor will be dealt with by the Executive Committee according to the equities of the case.

Protests: RULE 26. All protests must be in writing and accompanied by a deposit of \$20, which will be forfeited if protest is not sustained. Such protest must state plainly the cause of complaint, or appeal, and must be delivered to the Manager within six hours after the occasion for such protest, or in the Fat Classes, if age is brought into question, on the day prior to the one on which the animals are to be judged.

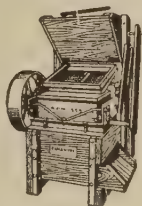

Appeals: RULE 27. No appeal of, or appeal from an award based upon a statement that the Judge or Judges have overlooked an animal or article will be considered by the Executive Committee.

Points Considered: RULE 28. The primary object of this Exposition is to encourage the breeding and feeding of improved breeds of live stock for well-defined, practical purposes. Regard will be had to symmetry, size, form, action, constitution, vigor and general characteristics of the various breeds, with reasonable allowances for age, but due regard will also be paid to heads and that graceful carriage, style and general refinement that denote breed character—points which, while not weighing on the "scale," add value to animals when being sold for breeding and carcass purposes. And, in groups, encouragement will be given to uniformity of breed type.

Barren Animals: RULE 29. The Exposition debars and will to the utmost of its power discourage and prohibit the exhibition of barren animals in the breeding classes.

Obesity and Leanness: RULE 30. The Exposition reserves the right to discriminate against both excessive obesity, which cannot be a profitable condition for breeding animals, and excessive leanness in which condition animals are unfit for exhibition.

Mouth Plates: RULE 31. Where the mouths of animals exhibited in the cattle divisions do not conform to official dentition plates, satisfactory evidence of the age of the animals must be produced by the exhibitor, and in case of protest in the breeding cattle division the same rule shall apply.

Official Veterinarian: RULE 32. The Manager will appoint veterinary surgeons and such other assistants as may be necessary. The veterinary surgeon shall cause all animals to be examined before their admission to the grounds, as a safeguard against infectious or contagious diseases, and shall make inspection of the grounds, stables, stalls and pens and make report in writing to the Manager of the condition in which said grounds, stables, stalls and pens are kept. In case of sickness of any animal the same shall be removed when ordered by the Manager to a separate enclosure, where the exhibitor may either direct treatment of the animal himself, or employ a veterinary surgeon appointed for that purpose, for whose services and other necessary expenses incurred a reasonable charge will be made by the Exposition. The right is reserved to the Manager to order the peremptory removal from the grounds of any animal to which this rule applies.

JUDGES

Note: Judges are earnestly requested to familiarize themselves with all the rules and regulations of this Exposition, and to especially mark those rules bearing on the classes to be adjudicated by them. Ignorance of the rules is inexcusable in a judge.

Selection of Judges: RULE 33. The single judge system is the policy of this Exposition, and, in every case, the judge is selected with the utmost care, and, as far as possible, will be of national reputation.

Time of Judging: RULE 34. The time at which the judges will pass upon the different classes is announced in the catalog, and will be on bulletin boards conspicuously posted. Any exhibit not presented promptly on schedule will be ruled out and debarred from competition in the class called.

Method of Awarding: RULE 35. No animal will be awarded a prize unless removed from its stall or pen and exhibited with catalog number attached before the judge in show ring.

Unworthy Exhibits: RULE 36. Judges must not award a prize to an unworthy exhibit. It is the intention of the Exposition that no premium or distinction of any kind shall be given any animal or article that is not deserving. Judges are also requested to discriminate against animals upon which a surgical operation has been performed to improve their "show" appearance. These rules must be strictly adhered to, whether there is competition or not.

Awarding Champion Prizes: RULE 37. All first and second prize winners are eligible to compete for championship honors; but no second prize animal shall be eligible to rank higher than "Reserve" in any champion class.

Competition: RULE 38. The management reserves the right to return entries and cancel any class in which, in its judgment, the number of entries is insufficient to insure adequate competition. Where there are fewer entries in a class than the number of premiums offered, the judge may, at his discretion, award prizes of such grade as the animals deserve; but in any event, regardless of the number of entries listed in the catalog, where the animals of only one exhibitor or his immediate family are shown, the judge will award only one prize, which may be of the grade to which the judge feels that the exhibit is entitled, and need not necessarily be a first or second prize.

Interference with Judges: RULE 39. If any exhibitor in any way, whether in person or by agent or servants, interferes with the judges during their adjudi-

cation, or shows any disrespect to them, or the Exposition, the division superintendent shall, at his discretion, demand a proper apology from such exhibitor, or he may exclude him from competition and from the ring and may also withhold from such exhibitor any premiums that may have been awarded.

Decision of Judges: RULE 40. The decision of the Judges shall be final in all cases, except where mistake, fraud, misrepresentation or collusion, not discovered at the time of the award is proven. In such cases the Manager, or such referee as he may appoint, may make decision, or with his approval, the case may be appealed to the Executive Committee, from whose decision there can be no appeal.

Animals Disqualified: RULE 41. Should any animal awarded a cash prize be disqualified the animals gaining the lower prizes shall graduate up into the higher positions next in order above them if in the opinion of the judges these animals are worthy of such prizes.

PREMIUMS

Ribbons: RULE 42. Premiums will be designated by ribbons: Blue, first; red, second; white, third; pink, fourth; yellow, fifth; green, sixth. Championships, royal purple. Special ribbons or card will be given to "highly commended," "commended" and "reserve" animals. To add to the value of awards all ribbons will be copyrighted.

Exhibiting Premiums: RULE 43. Exhibitors will be allowed to display prize ribbons, medals, certificates of award, etc., at their own quarters during the entire Exposition, subject to the approval of the Manager.

Paying Awards: RULE 44. (a) Cash premiums are payable by bank check (except, when, at the request of the exhibitor, a cup, diploma or medal is granted in lieu of cash). (b) The Exposition bank check will be drawn by the treasurer upon presentation of transcript of premiums awarded, duly signed by the Manager and endorsed as "correct" by exhibitor. (c) These checks in payment of premiums are payable "to order," and must be endorsed by those in whose favor they are drawn, and thereupon can be cashed by the treasurer or at any bank where endorser is identified. (d) Special premiums will be paid by those offering them, on an order from the Manager. (e) All orders, cups, diplomas, medals and certificates will be delivered at the general office of the Exposition, or forwarded to the exhibitors, as they may direct, as soon after the close of the Exposition as they can be properly engrossed and engraved. (f) All premiums whatsoever not claimed by exhibitors before January 1 of the following year shall be deemed forfeited to the Exposition or donors. (g) The Exposition reserves the right to withhold premiums awarded in every case in which it shall appear to the Executive Committee that the regulations have not been complied with, or that fraud or deception has been practiced or attempted.

Eligibility of Animals: RULE 45. All animals in the breeding classes must be recorded or accepted for record in the recognized books of record for their respective breeds, as shown herewith, and exhibitors must produce certificates of register at the request of the Manager any time during the Exposition. SPECIAL PRIZES

FOR THE

MEN BEHIND THE HERDS AND FLOCKS

Recognizing the superior skill, fine judgment and faithful devotion to duty on the part of the herdsman, shepherds and grooms in preparing the splendid specimens of animal excellence displayed annually at the International Live Stock Exposition, the management has decided to establish a series of competitive awards each year in the shape of medals, to be worn as honorary distinctions by these men in each of the various divisions.

The medals to be won comprise the following:

- To the herdsman fitting the grand champion steer of the show.
- To the herdsman fitting the grand champion carload of beef cattle.
- To the herdsman fitting respectively the grand champion bull of each of the four breeds of cattle.
- To the shepherd fitting the grand champion wether of the show.
- To the shepherd fitting the grand champion carload of sheep.
- To the herdsman fitting the grand champion pen of barrows.
- To the herdsman fitting the grand champion carload of hogs.
- To the groom of each draft breed representing the stable winning the highest score, arrived at as follows: Champion 15, reserve champion 12, first 10, second 8, third 6, fourth 4, and fifth 2 points.

The conditions of these awards shall be (1) that the animal or animals winning the championships named shall have been under continuous, immediate and personal charge or care of the herdsman, shepherd or groom for a period of at least six months preceding the opening day of the show; (2) that, except for unavoidable sickness or other excusable absence, the animal or animals shall be led into the ring or exhibited to the judges by such herdsman, shepherd or groom, as the case may be.

The purpose of awarding this series of valuable and beautiful medals is to show appreciation on the part of the management of the large share of credit due these faithful men for the excellence of the yearly exhibits at the "International," and to offer added incentive and a further reward for the intelligent thought and painstaking care by which they have sought to improve the breeds to which they are devoted.

BREEDING CATTLE DIVISION

ENTRIES IN INDIVIDUAL CLASSES CLOSE NOVEMBER 1

IMPORTANT

Bang's Disease: All cattle, except steers and calves under 4 months of age, for exhibition purposes, must be accompanied by a health certificate showing them to be from a Bang's disease-free accredited herd, or they must be accompanied by a health certificate showing them to have been negative to the agglutination test for Bang's disease within 30 days of entry and within 90 days of exhibition. All such certificates must give the date of test, the result of each of three dilutions, and the name of veterinarian or of laboratory making the agglutination test; provided an animal under 20 months old that can be positively identified by either registration name and number, ear tag number, tattoo, or other mark, and accompanied by a certificate issued by an accredited veterinarian stating that the animal has been vaccinated while between four and eight months of age with a product approved by the State Department and one produced under license of the Bureau of Animal Industry for calfhooed vaccination against Bang's disease, will be permitted to show.

Tuberculosis: All cattle for exhibition purposes must be accompanied by an official health certificate showing them to have been negative to the tuberculin test within 30 days of entry into Illinois and within 90 days of date of exhibition. Provided, (a) Cattle originating in a tuberculosis-free accredited herd may exhibit when accompanied by a health certificate showing such cattle to have originated in such accredited herd and giving the accredited herd number, and (b) Cattle from modified accredited areas may exhibit when accompanied by health certificate showing them to have originated in such accredited area and that the herd in which they originated had no reactors on last complete herd test and showing such cattle negative to the tuberculin test within one year of date of entry.

ILLINOIS REGULATION

All health certificates approved by the Chief Veterinarian, or other State livestock sanitary official of the State of origin, for livestock entering Illinois from other states must be mailed to the Division of Livestock Industry, Springfield, Illinois, in advance of the arrival of animal at Illinois destination.

Entry Fees: RULE 46. An entry fee of \$4.00 per animal will be assessed, which must accompany the application for entry. This money, however, will be applied on the stall rent (\$4.00 when occupying single stall and \$7.00 for double stall), but retained by the Exposition in event the exhibitor fails to bring his animals.

Nurse Cows: Entry fee \$2.00 per cow.

Bulls: RULE 47. A bull over one year old without ring in his nose may be excluded from the Exposition, at the discretion of the Management.

Breeding Cattle: RULE 48. Judges are instructed to award prizes for breeding cattle in the order in which they, as buyers, would make selection therefrom for breeding purposes; due consideration being given to the accepted maxim of breeding, that "like produces like," and to the doubtful utility for breeding purposes of over-fat animals, not considering color or pedigree.

Tampering and Misrepresentation: RULE 49. Any artificial means of removing or remedying the physical defects or conformation in exhibition cattle, such as cutting ties or lifting and filling under the skin will be considered as fraud and deception. All animals giving evidence of such treatment will be barred from competition at the International Live Stock Exposition. Misrepresentation of the age of an animal will be considered in the same light.

In the steer classes the regulations will be in full force and effect, but a tie shall not be regarded as a defect unless it is of such nature as to mar or injure what would otherwise be a prime carcass.

When satisfactory evidence has been obtained by the International management that this rule has been violated, the exhibitor, his herdsman, his manager, or all of them, may be barred from showing in any classes in the International Live Stock Exposition and reinstatement may be made only by a majority vote of its Board of Directors. In case any premium shall have been awarded to animals shown in violation of this rule, the International management will immediately request the exhibitor to refund all premiums, moneys, cups, trophies, and ribbons awarded under such violation.

Nurse Cows: RULE 50. Use of nurse cows will be permitted only for junior and senior calves, including steers, and will be limited to one cow for each calf.

“Hitting the Market”

FARMERS seek to sell their fat livestock when prices are at a peak. But there is more to “hitting the market” than just good timing.

Having the right kind of livestock to sell is equally important. To sell at top prices animals must be of the type, weight, finish and quality that will process into retail cuts that are in greatest demand in consumer markets.

How does one learn the types and kinds of meat animals which will best utilize feeds so as to minimize production costs and at the same time produce the kind of carcasses carrying the largest proportion of meat in the more valuable cuts?

Getting the right answers is the real purpose of livestock shows—the greatest of which is the International Livestock Exposition held annually in Chicago.

Judges at the International are skilled in recognizing the evidences of good breeding and good feeding. They also have intimate knowledge of what the market wants and the champions which they select and crown as the leaders in their fields can well serve as guides to producers who seek to make their operations as profitable as is possible through “hitting the market.”

Attendance at livestock shows and study of the winners help livestock producers improve their operations and their profits.

should a barn roof be?
Farmers say—
 "it can't be too good"

HERE'S A BETTER ROOF FOR FARM BUILDINGS

You can see and measure the EXTRA wind and weather protection built into the new Mule-Hide TOWN and COUNTRY shingle. It's tough and strong enough to take the severe beating that farm roofs get from wind and weather.

FARM ROOFS NEED THESE WEATHER DEFYING FEATURES

- **SHORT EXPOSURE**
 Gives greater wind and weather resistance.
- **MULTIPLE COVERAGE**
 Triple thickness over 94.6 percent of entire roof area.
- **SMALLER TABS**
 Increases resistance to wind.
- **SUPER-WEIGHT**
 38 percent more weight means more roof protection.

• MERCURY industrial tractors and trailers—"The Trackless Train"—have been used at every International Live Stock Exposition for the past 35 years. You will see this method in use again at the 1948 Exposition, as "The Trackless Train" delivers feed to all animals on exhibit, and Mercury tractors are used in the arena of the new International Amphitheatre during the horse shows.

VISITORS to the Exposition are cordially invited to see the complete Mercury line of industrial tractors, trailers, lift trucks, tiering trucks, and other equipment at the Mercury factory, 4044 South Halsted Street.

1948 "REVIEW AND ALBUM"

Copies of the 1948 "Review and Album" will be available, on application, as soon as possible after the close of this Exposition.

These books will contain every award at the 1948 Show, pictures of the champions, judges, list of exhibitors, department reviews, etc. One of these attractive cloth-bound books should be in the library of every stockman.

FAT CATTLE DIVISION

[For stall fees see Rule 46]

Advice to Judges: RULE 51. Judges are instructed to prefer the highest degree of excellence obtainable, considering form, finish, quantity and quality of flesh and fat, and weight for age; to recognize the very highest quality of prime edible meat, and to object to the production of superfluous tallow; qualities that are indicated to the touch, to the end that animals that win prizes on foot shall ultimately be proved first quality of beef and a profitable type of beef-producing animal (See Rule 49).

Disposition of Animals: RULE 52. Entries for slaughter test must be made prior to November 1 and all steers entered in slaughter contest must be designated by name at time of entry.

Duplicate Ribbons: Note.—As there has been considerable rivalry between the exhibitor and the purchaser for the possession of the first and championship ribbons, the management has decided to duplicate these throughout the fat cattle classes.

Note.—Only animals regularly entered and stabled on the Exposition grounds can compete for prizes in the individual classes.

SLAUGHTER TESTS

Slaughtering and Sale of Carcasses: Note.—All animals in the Carcass Contests will be driven to nearby packing plants where they will be slaughtered and the carcasses judged. The prize-winning carcasses will be returned to the Amphitheatre for exhibition.

The carcasses will be sold and proceeds will be transmitted to the exhibitors through the commission houses they designate.

Delivery of Animals Entered for Slaughter: RULE 55. Exhibitors of animals entered for slaughter in the dressed carcass competition must, when requested, deliver said animals into the charge of the General Superintendent, who shall direct their care, food and shrinkage, in accordance with the requirements of the case. Interference on the part of the exhibitor with animals thus delivered will be summarily dealt with.

Instructions to Judges: RULE 56. Judges of fat carcasses in competition are instructed to prefer the attractiveness of carcass, percentage of high class meat to total carcass, quantity and quality of flesh and fat. Judges of the dressed carcass classes (cattle, sheep and swine), are furthermore required to make their short list of six carcasses first and then cut half of these six carcasses into market cuts before making a final decision.

Labeling Carcasses. RULE 57. Carcasses are not to be labeled as to percentage of dressed weight, etc. until after they have been judged.

Judging on Hoof: Note.—In order to further increase the educational value of the Slaughter Test, the following classes provide for the judging of animals entered for slaughter, to be judged on hoof as well as in carcass; and any animal which is too unruly to be properly handled and examined may be barred from competition by the judge.

Animals entered in the Carcass classes (131 and 132) must be shown in their respective On Hoof classes (128 and 129). Competition open to any recognized beef breed in the carload or single classes.

In the Percheron Futurity classes, Nos. 22 and 27, an entrance fee of \$5.00 will be charged. These two classes are for stallions and fillies foaled in 1948. The total amount collected in entry fees in each class will be paid equally on the ten winning animals in that class. Each exhibitor's share will be added to the amount due him according to the placing of his animal in its class.

For further particulars apply to Percheron Horse Association of America, Union Stock Yards, Chicago, Ill.

PERCHERON HORSE ASSOCIATION OF AMERICA TROPHIES

The Percheron Horse Association, Chicago, offers two sterling silver challenge trophies—one on the Grand Champion Percheron Stallion and one on the Grand Champion Percheron Mare. Each trophy must be won three times in succession or five times intermittently to become the permanent property of an exhibitor.

PERCHERON SOCIETY OF FRANCE TROPHY

The Percheron Society of France, Nogent le Rotrou, France, offers a trophy to be awarded at the 1948 International Live Stock Exposition to the best stallion or mare imported from France, the trophy to become the permanent property of the exhibitor winning it three times in succession, or five times intermittently.

SHIRE

Animals competing must be recorded in the American Shire Horse Association Stud Books, and properly transferred to present owner to be eligible for Association's proportion of prize money.

The American Shire Horse Association will pay one-half of the following prize money, and offers special ribbons for the Grand Champion Shire Stallion and Grand Champion Shire Mare at the 1948 "International."

(1) RULES GOVERNING ELIGIBILITY OF CONTESTANTS

1. Any agricultural college undergraduate student representing his institution who has never taken part in any collegiate meat stock or heavy horse judging contest of interstate or international character previous to the year in which the contest is held, may enter, provided he is in attendance as a regularly enrolled student in the institution he represents, has taken one year's work in that institution, has not been away from the institution more than two years at a time after first entering said institution and who has at no time served in the capacity of animal husbandry instructor in any agricultural college.

Exceptions to Above: Regularly enrolled collegiate students, whether war veterans or not, who were members of teams competing in interstate contests in 1942 and who could have met all other requirements for competition in an International contest in 1942 shall be considered eligible for competition in 1948.

Veterans of Military Service not included above shall be considered eligible for competition in 1948 if they meet all requirements of Rule 1, except that pertaining to time away from the institution, and that time requirements shall be waived for war veterans only.

2. No college shall be represented by more than five men, which number shall constitute a team.

3. Each institution shall file with the Superintendent of the Students' Judging Contest at the time its students are entered an authoritative statement covering the eligibility of each of its representatives.

(2) SUPERINTENDENT

1. It shall be the duty of the Superintendent to see that all rules and regulations governing the contest are duly carried out. He shall see that the contest is conducted with fairness and justice to all concerned.

2. The Superintendent shall have a chief clerk and helpers to assist him in superintending the students while working on the different classes of stock and to aid him in such other capacities as he may require.

3. He shall direct the contestants which class to judge, time to commence work, and time to stop.

4. He shall say nothing to a contestant concerning the method to follow, either in judging the class, forming reasons, or giving reasons before the committee.

5. The Superintendent shall have nothing to do with placing the animals in the various classes, nor with the grading of the placing, or the reasons.

6. He shall have charge of all the grades given for both placing and reasons, and it shall be his duty to have these tabulated and totaled, and he shall deliver the result of the contest to the Secretary of the International Live Stock Exposition, who shall publish the result.

(3) CLERKS, ASSISTANTS AND ATTENDANTS

The clerks, assistants and attendants shall be at the command of the Superintendent and shall carry out his orders, and none of these assistants shall confer with the contestants, unless directed to do so by the Superintendent.

The attendants showing the live stock shall hold the animals in a careful manner, so that all contestants may have a fair chance to make observations on the same.

(4) JUDGES

1. Two judges shall be provided for each class of stock. (It is preferable that the judges be men with animal husbandry training, and engaged in live stock work.) The judges on the respective classes of live stock shall be designated as Judge A and Judge B. Judge A shall pass upon the placing of two rings of stock and shall decide upon which of these two rings he will require reasons to be given. Judge B shall pass upon and grade the placings and reasons given on the third ring of stock.

2. It shall be the duty of each judge to look over and approve his respective ring or rings of stock before the animals have entered the arena. It shall be his further duty after they have entered the arena to decide as to the order in which they shall be placed, and to decide on the essential reasons for placing the first above the second, the second above the third, and the third above the fourth. The judge shall keep the rating of the animals secret until after the contestants have been before him.

3. The judge shall also take charge of the ring of animals while the contestants are at work and shall see that the animals are shown satisfactorily.

4. When the contestant appears before the judge the clerk shall present the contestant's card bearing his rating of the animals, but not his grade, and the judge shall make a note of the same and grade it as his judgment dictates, and record his grade for placing on a card bearing the contestant's number. Fifty points shall constitute a perfect mark for placing. The contestant shall have two minutes in which to give his reasons for placing the animals. It shall be the duty of the judge to hear those reasons, to grade the same, and record his grade for reasons on the cards mentioned above. Fifty points shall constitute a perfect mark for reasons.

(5) CONTESTANTS

1. All prospective contestants must send in their entries to William E. Ogilvie, Secretary of International Exposition, by November 15, 1948.

2. Regular entry forms will be mailed all prospective contestants who request them before November 15, 1948.

6. No contestant will be permitted to inspect the livestock at the International Live Stock Exposition prior to the contest. Any transgression of this rule will be sufficient cause to bar a student from the contest.

7. No contestant shall wear any uniform, college colors, college hat, nor shall he in any way signify to the judges his identity or the identity of the college which he represents.

8. While the contest is in progress, there shall be no conferring between contestants or between a contestant and anyone else, except as directed by the Superintendent or his representative. Any violation of this rule will be punished by the expulsion of the offender.

9. The contestants shall be divided by the Superintendent into four groups: A, B, C, D, and shall be so designated thereafter throughout the contest.

10. When the four rings of stock are brought in, Group A contestants shall be assigned to one, B to a second, C to a third, and D to a fourth. All groups shall be notified three minutes before time is up. When final time is called Group A shall move to the second ring, B to the third, C to the fourth, and D to the first ring, and shall continue to rotate in this way until each group has passed on every ring of live stock.

11. The contestant shall hand his card, bearing his number, the descriptive name given the class of animals, and his placing, to the Supervising Clerk immediately after he finishes with each class.

12. Each student shall be required to give reasons on two of the three rings of stock he has examined in each class.

The contestants will be informed which two of the three rings of live stock of each class reasons will be required upon as soon as that point is decided.

13. When the contestants have passed upon all of the rings of stock they shall be taken to convenient quarters where each contestant shall be called before each committee of judges to give reasons for placing each ring. The contestants will be required to give reasons on one ring only at each hearing before the respective committees. The contestants shall be called before the committees to give reasons in the same order that they followed in placing the rings of stock in the arena.

(6) TIME

1. In each of the classes eighteen minutes shall be allowed the contestant to make his observations, record his placing, and write such memoranda as he may desire.

Each squad shall observe the rings of stock at a distance of twenty-five feet during the first three minutes. At the end of three minutes close inspection will be allowed.

Each group of contestants examining sheep shall be divided into two squads at the end of the first three minutes. Squad I shall remain in position twenty-five feet from the sheep for six minutes while Squad II makes close inspection; and Squad II shall stand in order twenty-five feet from the sheep for six minutes while Squad I makes close inspection. During the last three minutes all contestants will be required to remain twenty-five feet from all rings of sheep.

Contestants must remain outside the inner ring or rope surrounding the hogs that are judged and will not be permitted to handle the hogs at all.

No contestant shall hold any paper, card or device that will assist him while he is giving his reasons before the judges, except that he will be handed the card he turned in, which he will be allowed to retain while giving his reasons.

Each contestant shall appear singly before the judges and will be allowed two minutes to give reasons for his placing on each ring of animals. The contestant shall write his placing on a card and hand it to the clerk, as soon as he has finished the work of placing the class.

COLLEGIATE MEAT JUDGING CONTEST

The Intercollegiate Meat Judging Contest, inaugurated in 1926, will again be a feature of the International Live Stock Exposition. The contest will be held on Tuesday, November 30, in the wholesale market of one of the packers. R. C. Pollock, Secretary of the National Live Stock and Meat Board, will again serve as superintendent.

The contest is open to all agricultural colleges and to any other institution where adequate meat instruction is included as a regular course in the college curriculum. A team shall consist of three students. No college shall be represented by more than one team.

A contestant must be an undergraduate student who never has competed previously in a meat judging contest at the International Live Stock Exposition. It is required that the individual be a regular student at the institution represented, that the individual has had at least one year's work at that institution and has not been away from the institution more than two years at a time after first entering said institution. Also that the individual has at no time served as animal husbandry instructor in any agricultural college.

Exceptions to Above: Regularly enrolled collegiate students, whether war veterans or not, who were members of teams competing in interstate contests in 1942 and who could have met all other requirements for competition in an International contest in 1942 shall be considered eligible for competition in 1948.

Veterans of Military Services not included above shall be considered eligible for competition in 1948 if they meet all requirements of the above, except that pertaining to time away from the institution, and that time requirements shall be waived for war veterans only.

Teams will judge nine classes of meat as follows:

- Two classes of beef carcasses.
- Two classes of wholesale beef cuts.
- One class of pork carcasses.
- Two classes of wholesale pork cuts.
- Two classes of lamb carcasses.

(The above classes will contain four exhibits each.)

Beef Carcass Classification and Grading.

(This class will consist of ten beef carcasses which must be classified as to steer, heifer, cow or butcher bull carcasses and then graded on the basis of conformation, finish and quality. Each carcass is to be graded to the nearest one-third grade: High Choice, Average Choice, Low Choice; High Good, Average Good, Low Good; High Commercial, Average Commercial or Low Commercial.)

The individual contestants will be divided into ten groups with no regard to the teams they represent. Each group will be assigned to a class and will pass to another class at the end of each 15 minutes with the exception that two 15-minute periods will be allowed in the beef carcass classification and grading class. When all classes have been judged time will be allowed for writing of placings and reasons.

The rating of individual contestants and teams will be in the hands of a committee of judges. Selection of the meat for the different classes to be judged also will be in the hands of the judging committee.

The awards will consist of a trophy, emblems and ribbons. The National Live Stock and Meat Board trophy—a silver cup appropriately engraved—will be awarded to the team making the highest score in the contest. The trophy will be held by the team winning it only until the next contest unless the team is able to win it again. To retain it permanently a team must win it three times.

Appropriate emblems will be awarded as the permanent property of individuals placing first in the judging of the three major classes—beef, pork, and lamb—and also to the highest ranking individual in the contest.

Ribbons will go to each of the highest four individuals of the contest following the high man.

(1) RULES GOVERNING ELIGIBILITY OF CONTESTANTS

1. Participation in this contest shall be limited to one team, consisting of four individuals, from each state, the members of which shall represent the same agricultural high school, vocational high school, rural consolidated school, or boys' and girls' club regularly organized in cooperation with the agricultural extension department of the State Agricultural College. The scores of the three high scoring team members to count as the team's score; the fourth member automatically becoming the alternate. This team shall be determined by a state judging contest held at the state fair or the state agricultural college. The dean, or head of agriculture of the state agricultural college shall certify the eligibility of the successful team in the state judging contest to the Secretary and Manager of the International Live Stock Exposition not later than November 15, 1948.

2. Any boy or girl may be a member of a team who has not reached his or her twenty-first birthday on January 1, 1948, who has been in attendance or a regularly enrolled student in the school or club he or she represents for at least five months, who has never been regularly classified in a state agricultural school or any college giving training above high school grades (this restriction to in no way apply to those who have attended a short course of two weeks or less) prior to the International Junior Livestock Judging contest, and who has never taken part in a meat, stock or horse judging contest of an international character prior to the year 1948.

(2) SUPERINTENDENT

1. The Superintendent will see that all rules and regulations governing the contest are duly carried out and that the contest is conducted with fairness and justice to all concerned.

2. He will have an assistant superintendent and helpers to assist him in superintending the contestants while working on the different classes of stock and to aid him in such other capacities as he may require.

3. He shall direct the contestants which class to judge, time to commence work, and time to stop, but will not indicate the method to follow, either in judging the class, forming reasons, or giving reasons before the committee.

4. The Superintendent shall have nothing to do with placing the animals in the various classes, nor with the grading of the placing, or the reasons.

5. He shall have charge of all the grades given for both placing and reasons, and it shall be his duty to have these tabulated and totaled, and he shall deliver the result of the contest to the Secretary of the International Live Stock Exposition, who shall publish the result.

(3) CLERKS, ASSISTANTS AND ATTENDANTS

The clerks, assistants and attendants shall be at the command of the Superintendent and shall carry out his orders, and none of these assistants shall confer with the contestants, unless directed to do so by the Superintendent.

The attendants showing the live stock shall hold the animals in a careful manner, so that all contestants may have a fair chance to make observations on the same.

(4) JUDGES

1. Each judging committee shall consist of two experienced judges and an effort will be made to secure one animal husbandry instructor and one breeder or feeder of the class of animals to be passed upon.

2. It shall be the duty of each committee of judges to look over the rings of stock assigned to it and of each judge to decide as to the order in which the ring shall be placed, and to decide on the essential reasons for placing the first above the second, the second above the third, and the third above the fourth. The judges shall keep their ratings of the animals secret until after the contestants have been before the committee.

3. When the contestant appears before the committee, the clerk shall present the contestant's card bearing his rating of the animals, and each judge shall make a note of the same and grade it as his judgment dictates and record his grade for placing on a card bearing the contestant's number. Fifty points shall constitute a perfect mark for placing. The contestant shall have two minutes in which to give his reasons for placing each ring of animals. It shall be the duty of the committee to hear those reasons, to grade the same and to record their grade for reasons on the cards mentioned above. Fifty points shall constitute a perfect mark for reasons.

4. As soon as the judges have recorded their grades, the clerk shall collect the cards.

(5) CONTESTANTS

1. Entries for all contestants must be sent to William E. Ogilvie, Secretary, International Live Stock Exposition, Union Stock Yards, Chicago, by November 15, 1948.

2. An entry fee of \$3.00 will be charged each contestant, which sum must be forwarded with the application. The money received from this source is to be used in defraying the expenses of the examiners.

3. Each contestant shall report to the Superintendent at the Amphitheater at 8:00 A.M., Friday, November 26, 1948, when he will be assigned a number and such instructions as the Superintendent desires to give.

4. No contestant will be permitted to inspect the live stock at the International Live Stock Exposition prior to the contest. Any transgression of this rule will be sufficient cause to bar a student from the contest.

5. No contestant shall wear any uniform, high school or club colors, nor shall he in any way signify to the judges his identity or the identity of the high school or club which he represents.

6. While the contest is in progress, there shall be no conferring between contestants or between a contestant and anyone else, except as directed by the Superintendent or his representative. Any violation of this rule will be punished by the expulsion of the offender.

7. The contestants shall be divided by the Superintendent into four groups: A, B, C, and D, and shall be so designated thereafter throughout the contest. In no group shall there be more than one contestant from any one state.

8. When the four classes of stock are brought in, Group A contestants shall be assigned to one class, B to a second, C to a third and D to a fourth class. All groups shall be notified three minutes before time is up. When final time is called, Group A shall move to the second class, B to the third, C to the fourth, and D to the first class, and shall continue to rotate in this way until each group has passed on every class of live stock.

9. The contestant shall hand his card, bearing his number, the descriptive name given the class of animals, and his placing, to the Group Leader immediately after he finishes with each class.

10. Each student shall be required to give reasons on one of the two rings of stock he has examined in each class.

The contestants will be informed which one of the two rings of live stock of each class reasons will be required upon as soon as that point is decided.

11. When the contestants have passed upon all of the rings of stock they shall be taken to convenient quarters where each contestant shall be called before each committee of judges to give reasons for placing each ring. The contestants will be required to give reasons on one ring only at each hearing before the respective committees. The contestants shall be called before the committees to give reasons in the same order that they followed in placing the rings of stock in the arena.

(6) TIME

1. In each of the classes fifteen minutes shall be allowed the contestant to make his observations, record his placing, and write such memoranda as he may desire. The contestant shall write his placing on a card and hand it to the Group Leader as soon as he has finished the work of placing the class.

Contestants shall appear singly before the judges and will be allowed two minutes to give reasons for their placing of each ring of animals. No contestant shall hold any paper, card or device that will assist him while he is giving his reasons before the judges, except that he will be handed the card turned in, which he will be allowed to retain while giving his reasons.

CHICAGO ASSOCIATION OF COMMERCE SCHOLARSHIPS

The Chicago Association of Commerce and Industry offers \$500 for three scholarships. The following conditions govern:

1. The contestant making the highest rating in the judging of all classes of live stock in this contest is to receive \$250; the 2nd, \$150; and the 3rd, \$100. This money to be available only for a scientific training in agriculture or animal husbandry; and then only in ten monthly installments upon certification from the dean of a recognized agricultural college after the contestant matriculates.

It is understood that should the contestant for any reason discontinue his course before the entire sum is paid him, he relinquishes any claims upon the unpaid balance.

2. Each winning contestant must, not later than the first day of March following the award, notify The Chicago Association of Commerce and Industry and the International Live Stock Exposition of his intention to accept the scholarship awarded, and indicate the year in which he expects to use it. Failure on the part of any winning contestant to give such notification will cancel his right to the award. The award to which he would otherwise be entitled will be offered to the next highest ranking contestant.

3. Each winner of these scholarships is requested to set forth in a letter to the "International" Management at the close of the term how this generous donation to agricultural education made by the Chicago Association of Commerce and Industry helped or benefitted him.

ARMOUR & COMPANY SCHOLARSHIPS

Armour & Company offer three scholarships, of \$200 each, to be awarded to the three individuals in the Junior Livestock Judging Contest who are high respectively in judging cattle, sheep and swine.

These scholarships are available for the study of agriculture or animal husbandry in any recognized agricultural college. In order to secure payment, a certificate of registration, signed either by the dean of agriculture or registrar of the institution, must be sent. In case it is impossible for the student to use the money immediately following the winning of the scholarship, the money will be held one year.

TWENTY-SIXTH INTERNATIONAL GRAIN AND HAY SHOW

The International Grain and Hay Show is a feature of the International Live Stock Exposition which commands the interest of people everywhere. These exhibits of grain and hay serve as a show window of the field production of crops over the North American continent.

Scientific strides in the production of grain, corn and forage crops by the agricultural colleges, experiment stations and crop improvement associations have been a great stimulus to this international show.

The large and successful crops harvested in 1948 are a tribute to the better farming methods employed by producers with the full cooperation of the research and extension forces, supplemented with better machinery and more farm power.

New classes have been added this year for hybrid shelled corn which is not certified, to be known as the open classes. The old classes for certified hybrid shelled corn, in which the entries are germinated, have been continued as a separate contest. Ten ear samples of pop corn will be shown for the first time.

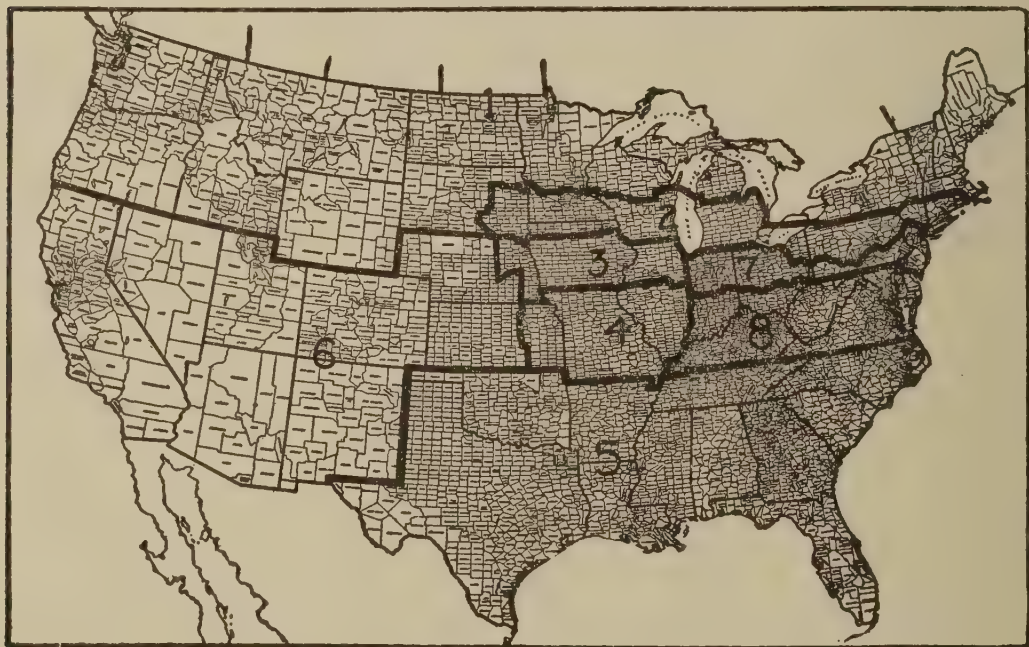

The plan of varying the premium money in accordance with the amount of competition in each class proved very successful when tried last year and will be followed again at the 1948 show. All of the prize money is thus more uniformly distributed to a larger number of exhibitors.

In addition to the following premiums underwritten by the commercial organizations sponsoring this show, other special awards will be made to successful exhibitors living in certain states and provinces by their local organizations. Some of these specials are listed on the following pages.

Dr. G. I. Christie, Director in charge.

Because of climatic and soil differences which are reflected in the grain and forage crops, the United States and Canada have been divided by the agronomists of the agricultural colleges into regions of approximately similar crops to conserve the interests of exhibitors.

Lac Qui Parle County, Minnesota, is in region 1.

REGIONAL MAP

RULES AND REGULATIONS

1. **Regions.** In order to equalize competition the United States and Canada have been divided into eight regions as shown on the accompanying map. In classes where regions are specified, samples must be entered in the region where they were grown and no exhibitor will be permitted to enter samples in more than one region. Entries from foreign countries will compete in the region having the most comparable conditions.

2. Number of Entries. An exhibitor may not enter a total of more than five samples in the show and not to exceed one sample in any class except in the hybrid shelled corn classes.

3. Eligibility. Samples must have been grown and selected by the exhibitor in the year 1948. Only one sample from the same farm, firm or family will be eligible for entry or competition in any given open class except in the junior corn contest. It is the purpose to make the competition equal to all exhibitors by limiting the entries in any given open class to only one from a complete farming unit rather than to allow several entries in the same class from what to all intents and purposes is the same exhibitor, whether owners, partners, owner and renter or sharecropper in the operation of the farm. Where a firm or family owns several farms, its members are not entitled to additional entries in the same class unless the farming operations are distinctly separate businesses carried on by the exhibitors. Where there is a doubt as to eligibility, write to the superintendent of entries for an official ruling under the circumstances of your specific case. Where doubt exists in regard to samples being entered according to rules and regulations, exhibitors may be required to verify entries by oath or affidavit. Where two samples from the same farm, firm or family are found to have competed in the same class when only one was eligible, both will be disqualified. This rule also applies to the hybrid shelled corn classes, except that five entries instead of one are allowed in any certain class.

4. Entry Fee. No entry fee will be charged in any class.

5. Making Entry. All applications for entry must be made in writing and must be in the hands of the superintendent of entries **not later than November 10, 1948.** Entry blanks will be furnished upon request.

6. Shipping Samples. Samples, when shipped, must have all transportation charges prepaid and must reach the Exposition grounds not later than **Monday, November 22,** excepting soft red winter wheat and hybrid shelled corn, which must arrive not later than Friday, November 19, for special tests. Other samples may be delivered in person up to 6 P. M. Thursday, November 25, which is the absolute deadline. All entries must have been made in accordance with rule 5. Shipments by freight will only be accepted when delivered to the Exposition grounds.

7. Handling. Samples will be accepted only at the official receiving office where they may be placed in containers by exhibitors ready for exhibition. After samples have been accepted, only their official state or provincial representatives, the show management and judges will be permitted access to them. Changing or modifying samples after they have been accepted will not be permitted. The exhibition space will be closed to all but the proper officials until the show is open on Saturday morning, November 27.

8. Return of Samples. Samples will be returned by collect express if requested at time of making entry but the management will not be responsible should loss occur.

9. Size of Samples. All samples of ear corn must consist of ten ears each; grain sorghums, 10 heads each; shelled corn, threshed grain sorghums, wheat, oats, flax, barley, rye, soybeans, cow peas, field peas and field beans, one peck each; red clover, white clover, alsike clover, sweet clover, alfalfa, timothy, lespedeza, crested wheatgrass, sudan grass and brome grass seed, four quarts each; and hay, one bale weighing not less than 50 pounds. "Peck" and "quart" mean measured quantities of the Winchester bushel.

10. Undesirable Samples. Any samples which are scoured, bleached, oiled, etc. so as to be objectionable for seed purposes will be disqualified at the discretion of the judges. The management reserves the right to determine the germination of all samples competing in any class other than for hay and to disqualify those found to be not suitable for seed.

11. Awards. The judges will award premiums in accordance with the merit of the entries. Samples of decidedly inferior merit will not be awarded premiums.

12. Judging. Judging will begin Friday, November 26, and will be completed as quickly as possible so as to give visitors the greatest opportunity to inspect the show and study the awards.

13. Release of Samples. Exhibits will be held at the show room until 11 P.M., Saturday, December 4.

14. **Liability.** The management will take all due precautions in the handling and protection of samples but will not be responsible for any errors, omissions, damage or losses which may occur.

15. **Premium Equalized.** A sample winning a championship will be paid a first premium equal to that paid any sample which it defeats, regardless of the first premium offered in its class.

The management reserves the right to interpret these rules and regulations, to make such other rules as are found necessary and to adopt whatever methods it deems advisable to protect exhibitors against unfair competition.

SUGGESTIONS TO EXHIBITORS

Wrap each ear of corn separately and pack in a strong, tight box. Protect butts and tips well to prevent shelling.

In each corn sample the ears should be numbered from 1 to 10 in the order in which the owner wishes them arranged on the trays at the show.

Do not ship corn samples in sacks or baskets. The ears may be injured by shelling, mice or in some other way. It is best to ship corn samples in a strong box.

Samples of small grain and seeds should be placed in double sacks for shipment. Single sacks are easily torn and the grain lost through leakage.

Hay exhibits should be wrapped with burlap and placed in a box or crate. Do not place excelsior in contact with hay.

VARIETY NAMES

Exhibitors are urged to give the variety name where possible for the guidance of the judges and the benefit of visitors.

RIBBON WITH EACH PREMIUM

Special purple ribbons will be awarded to the winning samples in all championship classes.

In addition to the trophies and special championship ribbons offered in this premium list, a handsome ribbon will be awarded with each cash premium which may be kept as a permanent record by the successful exhibitor. Championship ribbons will be purple, firsts blue, seconds red, thirds white, fourths pink; fifths yellow, sixths green and all others lavender.

CASH PREMIUMS

The judges will make awards to approximately one half of the samples entered in each class and premiums will be paid in accordance with the following table, except in the hay contests. This will distribute the total money available for premiums evenly throughout the show in proportion to the competition in each class. The table has been so arranged that a large number of exhibitors will receive premiums of closely related value rather than a few taking the lion's share.
